

Hi my name is Rachel Prescott and I have enjoyed working for Bolton Community Practice for 3 years as a GP receptionist.

In April I will be going to Albania for 9 days on a charity trip. I and the team I will be going with are working in Durrës which is the second biggest city in Albania. We will be working from a church there, helping a diverse community. Trafficking is becoming the number one social issue/crime in Albania, with just over 600 people being trafficked in to the UK last year. So our hope is to predominately work with young girls and ladies that are at risk. Supporting the community centre, that has a school for the children, women's groups, soup kitchen and visiting the local hospital and people's homes. (Where we will be chatting with the patients/families and serving food).

I have paid in full for the trip (flights, food, accommodation etc.) But we would like to take some money over there with us. They are in need of large toys for the children, the community centre decorating and a new fridge freezer for the kitchen. Also resources to take to the families that they support and onto the chemotherapy wards in the hospital

Such as:

Ginger tea

Lemon drops/boiled sweets.

Lip balm

Mini moisturisers

So I am asking for your support, if you would be willing to give; you can give to either Georgina Kilmartin at Waters Meeting, Nicola Hume at Little Lever or myself at Market surgery.

We do have a just giving page, if you would like to give anonymously.

Thank you in advance :-)
