

## DEFIBRILLATOR TRAINING

The LRA (Ladybridge Residents association) has bought a defibrillator, but how do we access it in an emergency and how does it work?

Ladybridge Community Centre  
Wednesday 13th March 2019  
7.30pm -8.30pm

Presentation and demonstration by the ambulance service of basic life support (CPR) and defibrillation with the opportunity to ask questions.

Please come along and learn potentially lifesaving information.

It is not necessary to register for this FREE training but it would be helpful if we had an idea of numbers wishing to attend.

Please contact Carol Greenhalgh 01204 62359 or [cagreenhalgh@outlook.com](mailto:cagreenhalgh@outlook.com) to express an interest or for more information.
