BOLTON COMMUNITY PRACTICE PATIENT ADVISORY GROUP (PAG)

Vaccination Programme

A Statement of Progress from Bolton Community Practice

As of 10th February 2021, we have now delivered 5312 vaccinations to the Bolton Community Practice population and those registered with a GP practice within the Halliwell & Waters Meeting Primary Care Network

We have achieved the following for our BCP patients

Cohort	Percentage of patients who have received the first coronavirus vaccination
1 Residential Care Home residents	92%
<i>Patients not in Care Homes</i>	
2 Patients aged 80+ and Health & Social Care Workers	90%
3 Patients aged 75-79	87%
4 Patients aged 70-74 & those who are clinically extremely vulnerable	80%
5 Patients aged 65-69	29%

We are confident that we have now contacted all patients who are aged 70+ and those who are clinically extremely vulnerable. If you have not been contacted, please contact the surgery to arrange an appointment at your earliest convenience.

Coronavirus Vaccinations

From a BCP Patient

I was really pleased to get an appointment on the first weekend that Waters Meeting Health Centre was offering vaccinations. It was busy on the day I went, but the staff were excellent and made sure that we were all looked after.

I was met at the door and asked for my name and to confirm my appointment time. Before I had the injection, the staff helped me to complete some paperwork. The injection took less than a minute and was painless. After waiting for 15 minutes, to make sure I was well, I was on my way home.

I would advise any patient who is offered the vaccination to have it, it is the best protection against COVID-19 that we can have.

Don't forget to wear a face covering when you go for the injection.
